in science' - ESCalate Why
do pupils' learning and
motivation slow down
markedly as they move from
primary to secondary school?
Why is this situation worse
in science than in any other

Online Library 10 Ticks Answers Level 7 8 Pack 2

curriculum subject? This book combines reports of and reflection on best practice in improving progression and continuity of teaching and learning in science - particularly at that transition stage between

Online Library 10 Ticks Answers Level 7 8 Pack 2

primary and secondary school. Presenting the views of teachers and pupils on progression, learning and application of science, the book suggests practical ways of improving teaching and learning in science. Each

Online Library 10 Ticks Answers Level 7 8 Pack 2

chapter includes examples of learning materials with notes on how these might be used or adapted by teachers in their own classroom settings. Science teaching in secondary schools is often based on assumptions

Online Library 10 Ticks Answers Level 7 8 Pack 2

that children know or can do very little, so the job in the secondary school becomes one of showing pupils how to start 'doing science properly', as if from scratch. The damage that this false view can do to

Online Library 10 Ticks Answers Level 7 8 Pack 2

pupils' learning, motivation and confidence is clear.

This book will help teachers to assess children's prior knowledge effectively and build meaningful and enjoyable science lessons.
