"The franchise agreement is the document that establishes the franchise relationship. This business relationship is characterized by a franchisor granting a franchisee a temporary or time- limited right to use the franchisor's system and trademarks to conduct business. Because there is no 'one size fits all' template for drafting a franchise agreement, this must-have resource provides proven guidance on the core issues covered by a well-drafted agreement and how to carefully analyze the many considerations involved."--

The manual contains separate sections for vehicle service, engines, converters, track drive, track and suspension, and skis and steering.

This case study describes the role an applied anthropologist takes to help Marshallese communities understand the impact of radiation exposure on the environment and themselves, and addresses problems stemming from the U.S. nuclear weapons testing program conducted in the Marshall Islands from 1946-1958. The author demonstrates how the U.S. Government limits its responsibilities for dealing with the problems it created in the Marshall Islands. Through archival, life history, and ethnographic research, the author constructs a compelling history of the testing program from a Marshallese perspective. For more than five decades, the Marshallese have experienced the effects of the weapons testing program on their health and their environment. This book amplifies the voice of the Marshallese who share their knowledge about illnesses, premature deaths, and exile from their homelands. The author uses linguistic analysis to show how the Marshallese developed a unique radiation language to discuss problems related to their radiation exposure problems that never existed before the testing program. Drawing on her own experiences working with the government of the Marshall Islands, the author emphasizes the role of an applied anthropologist in influencing policy, and empowering

community leaders to seek meaningful remedies. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

YZF-R125 124cc 08 - 11 Popular low-cost learner bike. UK vehicle parc (at Dec 2010) = 5,949.

Haynes has discovered all the problems that motorcycle owners could possibly encounter when rebuilding or repairing their bikes. Documenting the most common DIY fixes with hundreds of illustrations and step-by-step instructions, this compendium of repair, modification and troubleshooting advice is applicable to all domestic and import marques.

This unique volume of writings by educators in the field working with women's literacy reveals the many ways in which addressing women's empowerment through literacy continues to impact lives. Not only are teachers and learners in adult basic education (ABE), literacy and English language learning (ELL) classes affected, but also those who value and support women's learning and equity, and education for social change. Revelations-- More than half of the 3.6 million students in adult basic/literacy education (ABE) programs across the U.S. are women (Sticht, 2001). Research outlines many barriers for women pursuing basic education and literacy, and recommends using woman-positive approaches (Sheared, 1994). However, there exists little research on how educational systems and policies, instructional materials, and pedagogical practices best support the literacy and educational achievement of women literacy learners. Writings and curriculum by individual educators outline and describe innovative activities/ programs focused specifically on the needs of women learners (Cuban & Hayes, 1996; Hayes & Flannery, 2000; Miller & Alexander, 2004; Young & Padilla, 1990). In recent years, educators have been developing innovative curriculum to address such issues as trauma and violence (e.g., Take on the Challenge), work-readiness (e.g. Ready for Work), or women's issues in general (Making Connection). New Directions-- Empowering Women through Literacy: Voices from Experience is the first comprehensive collection of writing from the field by everyday educators who experience the joys and challenges, creativity and barriers to acknowledge or integrate innovative solutions to support women's learning needs in adult basic education and literacy settings. Mirroring the power of community-based and grassroots organizations, this volume has had a remarkable history. It has emerged from five years of work by WE LEARN (Women Expanding Literacy Education Action Resource Network) to address the needs of literacy educators and students alike through the organization. The vibrant collective of the WE LEARN network provides consistent visibility for women's literacy issues, creates connections among educators and activists, supports self-efficacy among learners, encourages new research relevant to women in ABE, and develops and distributes women-focused literacy materials and curriculum resources. It continues to be the only national U.S. organization directly addressing issues of adult women's literacy and the educational needs of women in ABE. We know you will enjoy this volume that provides an opportunity to hear from 47 contributors from around the world who reflect on their experiences with critical topics of adult literacy practices; how to empower women through literacy and current research based practice. From Belize to Australia, Brazil to Germany, and USA to Turkey, the voices of women engaged in empowerment are awaiting you through these pages. Literacy can change lives, how can we better reach those who desire this empowerment? Join us we explore the breadth of vision and knowledge captured within this groundbreaking volume. The Editors: Dr. Mev Miller and Dr. Kathleen P. King are co-editors of this volume within the Adult Education Series of Information Age Publishing. Mev Miller is the founder and director of WE LEARN, headquartered in Cranston, RI (www.litwomen.org). Kathy King is a professor of adult education at Fordham University's Graduate School of Education in New York City. They and 45 other contributors join together in this volume to celebrate the unheralded capacity of literacy's empowerment in women's lives.
