API 20 E is a standardized identification system for Enterobacteriaceae and other non-fastidious, Gram- negative rods which uses 21 miniaturized biochemical tests and a database. The complete list of those organisms that it is possible to identify with this system is given in the Identification Table at the end of this package insert.

This API-20E test strip (from bioMerieux, Inc.) is used to identify the enteric gram negative rods (although API makes a variety of other test strips for yeast, Staph, anaerobes, etc.) 20 separate test compartments are on the strip, all dehydrated. A bacterial suspension is used to rehydrate each of the wells.
