With a narrative as briskly paced and vividly detailed as an international thriller, this definitive biography of Chiang Kai-shek masterfully maps the tumultuous political career of Nationalist China's generalissimo as it reevaluates his brave but unfulfilled life. Chiang Kai-shek was one of the most influential world figures of the twentieth century. The leader of the Kuomintang, the Nationalist movement in China, by 1928 he had established himself as head of the government in Nanking. But while he managed to survive the political storms of the 1930s, Chiang's power was continually being undermined by the Japanese on one side and the Chinese Communists on the

other. Drawing extensively on original Chinese sources and accounts by contemporaneous journalists, acclaimed author Jonathan Fenby explores little-known international connections in Chiang's story as he unfolds a story as fascinating in its conspiratorial intrigues as it is remarkable for its psychological insights. This is the definitive biography of the man who, despite his best intentions, helped create modern-day China.

Following his acclaimed studies of the state of modern France and how Hong Kong has changed since the 1997 handover, Jonathan Fenby now turns his attention to one of the most interesting yet under-reported

figures of twentieth-century history. Chiang Kai-shek was the man who lost China to the Communists. As leader of the nationalist movement, the Kuomintang, Chiang established himself as head of the government in Nanking in 1928. Yet although he laid claim to power throughout the 1930s and was the only Chinese figure of sufficient stature to attend a conference with Churchill and Roosevelt during the Second World War, his desire for unity was always thwarted by threats on two fronts. Between them, the Japanese and the Communists succeeded in undermining Chiang's power-plays, and after Hiroshima it was Mao Zedong who ended up victorious.

With the beautiful, powerful, and sexy Madame Chiang Kai-shek at the center of one of the great dramas of the twentieth century, this is the story of the founding of modern China, starting with a revolution that swept away more than 2,000 years of monarchy, followed by World War II, and ending in the eventual loss to the Communists and exile in Taiwan. brings to life what Americans should know about China -- the superpower we are inextricably linked with -- the way its people think and their code of behavior, both vastly different from our own. The story revolves around this fascinating woman and her family: her father, a peasant who raised himself into Shanghai society and sent his daughters to college in America in a day when Chinese women were kept purposefully uneducated; her mother, an unlikely Methodist from the Mandarin class; her husband, a military leader and dogmatic warlord; her sisters, one married to Sun Yat-sen, the George Washington of China, the other to a seventy-fifth lineal descendant of Confucius; and her

older brother, a financial genius. This was the Soong family, which, along with their partners in marriage, was largely responsible for dragging China into the twentieth century. Brilliantly narrated, this fierce and bloody drama also includes U.S. Army General Joseph Stilwell; Claire Chennault, head of the Flying Tigers; Communist leaders Mao Tse-tung and Chou En-lai; murderous warlords; journalists Henry Luce, Theodore White, and Edgar Snow; and the unfortunate State Department officials who would be purged for predicting (correctly) the Communist victory in the Chinese Civil War. Trotskyite, and he lived twelve years in Russia. He died in 1988 as the leader of Taiwan, a Chinese society with a flourishing consumer economy and a budding but already wild, woolly, and open democracy. He was an actor in many of the events of the last century that shaped the history of China's struggles and achievements in the modern era: the surge of nationalism among Chinese youth, the grand appeal of Marxism-Leninism, the terrible battle against fascist Japan, and the long, destructive civil war between the Nationalists and the Communists. In 1949, he fled to Taiwan with his father and two million Nationalists. He led the brutal suppression of dissent on the island and was a major player

in the cold, sometimes hot war between Communist China and America. By reacting to changing economic, social, and political dynamics on Taiwan, Sino-American rapprochement, Deng Xiaoping's sweeping reforms on the mainland, and other international events, he led Taiwan on a zigzag but ultimately successful transition from dictatorship to democracy. Jay Taylor underscores the interaction of political developments on the mainland and in Taiwan and concludes that if China ever makes a similar transition, it will owe much to the Taiwan example and the Generalissimo's son.
