~~The citizen skyhawk Eco-Drive watch offers a multifunctional timepiece that uses a solar cell to convert light into electrical energy. The cell, embedded in the dial, drives the hour, minute and second hands, chronograph, alarm, timer and other functions. Fully charged, the Skyhawk Eco-Drive shifts into a power save mode to conserve energy in low-light or dark conditions.~~

~~Recharging Guides. Your Eco-Drive timepiece is specially powered by Citizen's proprietary ECO-DRIVE TECHNOLOGY, which converts any source of light (natural and artificial) into usable energy. The harnessed energy is then stored in a special power reserve to keep your timepiece charged and running properly. If you wear your new Citizen Eco-Drive timepiece on a regular basis, recharging will be virtually automatic as regular exposure to light will keep your power reserve unending.~~

Rotate the crown to the left (counterclockwise) to set the date. (1) Rotate the crown 1 'click' to move the mode hand 4 revolutions and advance the date by 1 day. (2) Quickly rotate the crown 2 or more times consecutively for continuous advance. Rotate the crown to the left or right by 1 click to stop rapid advance.

This book examines the history of creative applications of photovoltaic (PV) solar power, including sound art, wearable technology, public art, industrial design, digital media, building integrated design, and many others. The growth in artists and designers incorporating solar power into their work reflects broader social, economic, and political events. As the cost of PV cells has come down, they have become more accessible and have found their way into a growing range of design applications and artistic practices. As climate change continues to transform our environment and becomes a greater public concern, the importance of integrating sustainable energy technologies into our culture grows as well. The book will be of interest to scholars working in art history, design history, design studies, environmental studies, environmental humanities, and sustainable energy design.

The Chicago Tribune Guide to Midwest Travel, composed of articles from the Chicago Tribune's travel experts, is a convenient and unique handbook for traveling throughout the Midwest. The book is organized by state, then features general recommendations for restaurants, museums, hotels, and outdoor activities. Also included are insights on travel accessories, mobile apps, outdoor gear, technology, and even tips on taking the best vacation photography. This book offers a diverse variety of experts' advice, making it well-suited for any kind of travel: family vacation, weekend getaways, and even business travel. The Chicago Tribune Guide to Midwest Travel reveals destinations, festivals, and attractions that easily may have been overlooked otherwise. Whether readers want to visit a new region or embark on a nearby adventure, this one-of-a-kind guide from a trusted source will make any trip more memorable.
