El professor Joan Veny, que ha estat vicepresident i president de l'AILLC, s'ha dedicat molt especialment a la dialectologia i al lèxic català. Amb aquesta miscel·lània, que coincideix amb la seva jubilació com a catedràtic de la universitat de Barcelona, l'AILLC vol fer públic el reconeixement de tots els seus membres envers els estudiosos més importants de la llengua i de la literatura dels Països Catalans.

Emphasizing the understanding of images and their influences on how they affect our attitudes, beliefs, and actions, this fully updated sixth edition offers consequential ways of looking at images from the perspectives of photographers, critics, theoreticians, historians, curators, and editors. It invites informed conversations about meanings and implications of images, providing multiple and sometimes conflicting answers to questions such as: What are photographs? Should they be called art? Are they ethical? What are their implications for self, society, and the world? From showing how critics verbalize what they see in images and how they persuade us to see similarly, to dealing with what different photographs might mean, the book posits that some interpretations are better than others and explains how to deliberate among competing interpretations. It looks at how the worth of photographs is judged aesthetically and socially, offering samples and practical considerations for both studio critiques for artists and professional criticism for public audiences. This book is a clear and accessible guide for students of art history, photography and criticism, as well as anyone interested in carefully looking at and talking about photographs and their effects on the world in which we live.
