Were you looking for the book with access to MyLabMath Global? This product is the book alone, and does NOT come with access to MyLabMath Global. Buy Mathematics for Engineers, 5e by Croft with MyLabMaths Global access card 5e (ISBN 9781292267685) if you need access to the MyLab as well, and save money on this brilliant resource. Understanding key mathematical concepts and applying them successfully to solve problems are vital skills that all engineering students must acquire. Mathematics for Engineers teaches, develops and nurtures those skills. Practical, informal and accessible, it begins with the foundations and gradually builds upon this knowledge as it introduces more complex concepts to cover all requirements for a first year engineering maths course, together with introductory material for even more advanced topics. Need extra support? This product is the book alone, and does NOT come with access to MyMathLab Global. This title can be supported by MyMathLab Global, an online homework and tutorial system which can be used by students for self-directed study or fully integrated into an instructor's course. You can benefit from MyMathLab Global at a reduced price by purchasing a pack containing a copy of the book and an access card for MyMathLab Global: Mathematics for Engineers with MyMathLab Global access card 5e (ISBN 9781292267685). For educator access, contact your Pearson Account Manager. To find out who your account manager is, visit www.pearsoned.co.uk/relocator

Revised edition of: Engineering mathematics: a foundation for

Download File PDF Engineers Mathematics Croft Davison

electronic, electrical, communications, and systems engineers / Anthony Croft, Robert Davison, Martin Hargreaves. 3rd edition. 2001.

This foundation text is aimed at the less well prepared student at pre-degree level, and provides well-paced, mathematically sound and motivating coverage. The text concentrates on applicable maths, including simple engineering examples across all engineering disciplines, highlighting the relevance of the mathematical techniques presented. Clear explanations of the concepts behind each technique are provided.

An accessible, step-by-step approach to teaching mathematics with today's engineering student in mind. The content is divided into manageable pieces of work ('blocks') focusing on one specific technique and the explanations are gradually developed through fully and part-worked examples. Highlighted key points and use of icons throughout the book aid understanding of the mathematical concepts being presented.

Were you looking for the book with access to MyMathLab Global? This product is the book alone, and does NOT come with access to MyMathLab Global. Buy Mathematics for Engineers, 4e by Croft with MyMathLab Global access card 4e (ISBN 9781292077765) if you need access to the MyLab as well, and save money on this brilliant resource. Were you looking for the book with access to MyMathLab? This product is the book alone, and does NOT come with access to MyMathLab. Buy Foundation Maths with MyMathLab access card 5e (ISBN 9780273730767) if you need access to the MyLab as well, and save money on this brilliant resource. Foundation Maths has been written for students taking higher and further education courses who have not specialised in mathematics on post-16 qualifications and need to use mathematical tools in their courses. It is ideally suited to those studying marketing, business studies, management, science, engineering, social science, geography, combined studies and design. It will be useful for those who lack confidence and who need careful, steady guidance in mathematical methods. For those whose mathematical expertise is already established, the book will be a helpful revision and reference guide. The style of the book also makes it suitable for self-study and distance learning. Need extra support? This product is the book alone, and does NOT come with access to MyMathLab. This title can be supported by MyMathLab, an online homework and tutorial system which can be fully integrated into an instructor's course. You

This package includes a physical copy of Mathematics for Engineers, 4e by Croft as well as access to the eText and MyMathLab Global. To access the eText and MyMathLab Global you need a course ID from your instructor. If you are only looking for the book buy ISBN 9781292065939. Understanding key mathematical concepts and applying them successfully to solve problems are vital skills that all engineering students must acquire. Mathematics for Engineers teaches, develops and nurtures those skills. Practical, informal and accessible, it begins with the foundations and gradually builds upon this knowledge as it introduces more complex concepts until you have learned everything you will need for your first year engineering maths course, together with introductory material for even more advanced topics. MyMathLab Global is designed to improve results by helping students quickly master concepts. Specific features For lecturers: Comprehensive online course content - Filled with a wealth of content, MyMathLab is available as a standalone online solution or it can be tightly integrated with the author approach of your choosing. You can easily add, remove, or modify existing instructional material. You can also add your own course materials to suit the needs of your students or your department. Interactive Exercises with Immediate Feedback - MyMathLab's homework and practice exercises reflect your choice of approach and learning style, and regenerate algorithmically to give students unlimited opportunities for practice and mastery. Comprehensive Gradebook - The online gradebook automatically tracks students' results on tests, homework, and practice exercises, and gives you control over managing results and calculating grades. View, analyse, and report learning outcomes clearly and easily, and get the information you need to keep your students on track throughout the course. For

students: Adaptive Learning - Not every student learns the same way and at the same rate. Thanks to advances in adaptive learning technology, we can now offer you a personalised learning journey. MyMathLab's adaptive study plan test you up-front on the key content you need to know to succeed in your course. After taking a test or quiz, MyMathLab analyses the results to provide you with personalised homework assignments so that you can focus solely on just the topics and objectives they have yet to master. Interactive Exercises with Immediate Feedback - MyMathLab's homework and practice exercises regenerate algorithmically to give you unlimited opportunity for practice and mastery. Mobile-Friendly Design - MyMathLab's exercise player has been updated with a new, streamlined, mobile-friendly design! You can access your course from iPad and Android tablets to work on exercises and review completed assignments.
