PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general.

This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when me say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend-ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a

day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead.

Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, -such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all

the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Donated by Sydney Harris.

Thanks to his father's genetic experiments, Hugo Danner is born with superhuman levels of strength, speed, and intelligence. Hugo feels compelled to conceal his gifts from a suspicious and uncomprehending world, but he doesn't take on an identity as a costumed crusader. Instead, his struggles to find a place in society that will accommodate his extraordinary skills lead to a checkered career as a boardwalk strongman, Foreign Legionnaire, politician, and archeologist. *Gladiator*, first published in 1930, preceded Superman's debut by eight years and formed the archetypes further

developed in subsequent superhero comics and literature. Fans of comics, graphic novels, science-fiction, and fantasy literature will be captivated by this timeless tale of an outsider's search for acceptance and fulfillment. Introduction by Gerard Jones, author of *Men of Tomorrow: Geeks, Gangsters, and the Birth of the Comic Book*.

An English adaptation of a Catalan book. This volume is based on Jordi Coca's autobiography, which tells of his youth in Barcelona, and the difficult times in the 1940s and 1950s. Written in a simple and uncluttered style, and it provides an honest portrayal of life.

An Anchor Books Original Seventy-four distinguished writers tell personal tales of books loved and lost—great books overlooked,

under-read, out of print, stolen, scorned, extinct, or otherwise out of commission. Compiled by the editors of Brick: A Literary Magazine, Lost Classics is a reader's delight: an intriguing and entertaining collection of eulogies for lost books. As the editors have written in a joint introduction to the book, "being lovers of books, we've pulled a scent of these absences behind us our whole reading lives, telling people about books that exist only on our own shelves, or even just in our own memory." Anyone who has ever been changed by a book will find kindred spirits in the pages of Lost Classics. Each of the editors has contributed a lost book essay to this collection, including Michael Ondaatje on Sri Lankan filmmaker Tissa Abeysekara's Bringing Tony Home, a novella about a mutual era of childhood. Also included are Margaret Atwood on sex and death in the scandalous Doctor Glas, first
