5-Minute Recruiting: Using Voicemail to Build Your Network Marketing Business I've recruited hundreds of distributors and become a top money-earner in my company using voicemail as my primary recruiting tool. I use one-minute voicemail messages to get leads. And I use 5-minute voicemail messages ("sizzle calls") to recruit them. In fact, I've signed up more than a few distributors using ONLY a 5-minute sizzle call. Now, it's your turn. This book shows you everything you need to know to use voicemail messages to build a successful network marketing business. You'll learn how to create a simple "lead capture" voicemail message, and how to use it to get all the leads you want. You'll learn how to create an effective "sizzle call"

voicemail message and use it to recruit distributors into your business. You'll learn how to leave a voicemail message (on a prospect's voicemail or answering machine) that gets them to call you back. And you get SCRIPTS you can use as models for your scripts, including actual scripts I use in my business. YOU'LL LEARN How to write scripts that get prospects to say, "I'm interested-tell me more" How long to make your messages-what's too long? What's too short? Where to get a FREE voicemail account for your messages-the service I use and recommend The easiest, "low tech" way to record your messages How to PROMOTE your lead capture message-what I do and recommend (with more scripts) Tracking your numbers-what's a "good" response and how to make it better How to use sizzle calls to quickly find interested prospects-the EXACT method I use How to create scripts for recruiting doctors, lawyers, business owners, and other professionals How to get your first message set up in ONE HOUR or Less! Voicemail messages are the ultimate lead capture and recruiting tool. They're easy to set up, easy to use, and they work like crazy. Instead of spending hours talking to prospects and following-up with them again and again, only to find out they're not interested, voicemail messages let you find out who is (and isn't) interested in a few minutes. If you want to recruit more, and recruit faster, you should be using voicemail messages to build your business. This book shows you how. The book is divided into five parts: Part 1: Lead Capture Messages: Sample scripts and step-by-step instructions for creating your own messages. Part 2: Sizzle Calls: More scripts, and a simple way to create the ideal message for your business. Part 3: Recording and Promoting Your Messages: How to set up your voicemail account, how to record your messages, and how to promote and use those messages. Part 4: How to Leave a Voicemail Message That Gets Prospects to Call You Back: When you should (and shouldn't)

Learn proven, real-world techniques for specifying software requirements with this practical reference. It details 30 requirement patterns offering realistic examples for situation-specific guidance for building effective software requirements. Each pattern explains what a requirement needs to convey, offers potential questions to ask, points out potential pitfalls, suggests extra requirements, and other advice. This book also provides guidance on how to write other kinds of information that belong in a requirements specification, such as assumptions, a glossary, and document history and references, and how to structure a requirements specification. A disturbing proportion of computer systems are judged to be inadequate; many are not even delivered; more are late or over budget. Studies consistently show one of the single biggest causes is poorly defined requirements: not properly defining what a system is for and what it's supposed to do. Even a modest contribution to improving
