Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or

toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. <https://usgovpub.com>

In the summer of 1942, Max Chadwick is the British officer charged with manipulating the news on Malta to bolster the population's fragile esprit de corps, as the small windswept island endures relentless Axis air raids. The fiercely independent Maltese, and a few broken-down fighter planes, are all that stand in the face of Nazi occupation and perhaps even victory—for Malta is the stepping-stone the Germans need between Europe and North Africa. When Max learns of the brutal murder of a young island woman—along with evidence that the crime may have been committed by a British officer—he knows that the Maltese loyalty to the war effort could be instantly shattered.

Nancy Cain began playing with video as a member of Videofreex, the radical video collective in New York City that shot footage of Woodstock and the Chicago Eight. She worked on the first video pilot ever shot for network television with the Videofreex at CBS in 1969, and ran an offbeat video show at the Videofreex loft in Soho. She cofounded Lanesville TV--known as "Probably America's Smallest TV Station." The pirate broadcasts were made possible by a transmitter donated by Yippie activist Abbie Hoffman. Along with TVTV, she

defined the video documentary movement of the 70s, known as "guerilla television." Cain was a co-creator and producer of The '90s, a weekly hour-long alternative show for PBS, which the New York Post called "refreshingly irreverent, opinionated and outlandish." She was the co-creator and producer of CamNet The Camcorder Network, America's first all-camcorder station. Rolling Stone designated CamNet second only to HBO in their list of "the ten things in 1993 that didn't suck," and heralded CamNet as "a brilliant and democratic vision...a people's CNN," and "the inevitable next step in the liberation of television from network owners and broadcasters." -- taken from back cover.
