Maternal Child Health The Columbia County Department of Health offers programs and services to assist families during pregnancy, after the baby 's birth, and during the childhood years. Our goal is to provide education, assessments, and health care to help promote the healthiest possible start for your child 's life.

Columbia County Public Health | Nursing and Clinical Services

For too long perinatal care focused on nine months of pregnancy and the delivery of a healthy infant at 40 weeks. Then we underwent a paradigm shift. We realized that the care that we offer in first 100 days after a baby is born is just as important as the care we provide during pregnancy. The 4th Trimester was born!

National Perinatal Association - 2020 Conference

Maternal & Child Nursing Care, 4th Edition - Pearson

Written by the foremost experts in maternity and pediatric nursing, Maternal Child Nursing Care, 5th Edition offers the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX® examination. This new edition offers numerous content updates throughout the text to keep you up-to-date on the latest topics and best practices. Plus hundreds of illustrations, alert boxes, and tables clarify key content and help you quickly find essential information. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, supply resources and guidance, and illustrate nursing care in a variety of settings. Critical thinking case studies offer opportunities to test and develop your analytical skills and apply knowledge in various settings. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Family-Centered Care boxes highlight the needs or concerns of families that you should consider to provide family-centered care. NEW! Content updates throughout the text give you the latest information on topics such as the late preterm infant, fetal heart rate pattern identification, obesity in the pregnant woman, shaken baby syndrome/traumatic brain injury, Healthy People 2020, car restraints, immunizations, and childhood obesity. NEW! Updated Evidence-Based Practice boxes including QSEN KSAs (knowledge, skills, attitudes) provide the most current practice guidelines to promote quality care. NEW! Medication Alerts stress medication safety concerns for better therapeutic management. NEW! Safety Alerts highlighted and integrated within the content draw attention to developing complications related to safe nursing practice.

Get the accurate, practical information you need to succeed in the classroom, the clinical setting, and on the NCLEX-RN ® examination. Written by the foremost experts in maternity and pediatric nursing, the user-friendly Maternal Child Nursing Care, 6th Edition provides both instructors and students with just the right amount of maternity and pediatric content. This new edition includes updated case studies within Nursing Care Plans, as well as a new chapter on pediatric cancer. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Focus on the family throughout emphasizes the influence of the entire family in health and illness. Expert authors of the market-leading maternity and pediatric nursing textbooks combine to ensure delivery of the most accurate, up-to-date content. Critical thinking case studies offer you opportunities to test and develop your analytical skills and apply knowledge in various settings. Nursing Care Plans include rationales for interventions and provide you with an overview and specific guidelines for delivering effective nursing care. Nursing Alerts highlight critical information that you need to know when treating patients. Guidelines boxes outline nursing procedures in an easy-to-follow format. Emergency boxes in the maternity unit guide you through step-by-step emergency procedures. Home Care boxes detail important information that you need to deliver care to patients and families in the home setting. Atraumatic Care boxes in the pediatric unit teach you how to provide competent and effective care to pediatric patients with the least amount of physical or psychological stress. Community Focus boxes emphasize community issues, provide resources and guidance, and illustrate nursing care in a variety of settings. Patient Teaching boxes in the maternity unit highlight important information nurses need to communicate to patients and families. Cultural Competence boxes equip you with the knowledge you need to deliver culturally competent care. Family-Centered Care boxes draw attention to the needs or concerns of families that you should consider to provide family-centered care. Medication Guides serve as an important reference of drugs and their interactions. NEW! New chapter on pediatric cancer gives you the most up-to-date information on the latest topics. EXPANDED! Additional information on sexuality in the maternity section. EXPANDED! More content on spirituality in the family, culture, and spiritual chapters. EXPANDED and UPDATED! New content about LBGTQ+ included in the Transition to Parenthood chapter. NEW! Information on victims of sexual abuse as parents and human trafficking helps prepare you to handle these delicate issues. NEW and UPDATED! Case studies emphasize interprofessional care, demonstrating how nursing must collaborate with other health care disciplines to provide the most comprehensive care possible to women and children. UPDATED! Nursing Care Plans now incorporate case studies to personalize interventions and promote critical thinking.

For all courses in maternal and child nursing care in any nursing program. This dynamic, up-to-date text offers an integrated framework and philosophy for teaching the nursing of childbearing families and nursing of children together. Accurate, readable, and concise, Maternal & Child Nursing Care supports faster and more efficient learning in briefer, more compressed courses; while helping students develop essential skills for fast-changing healthcare environments. Core themes in this edition include family-centered and community-based care; health promotion (including Healthy People 2020); patient and family education; clinical reasoning; evidence-based practice; and developing cultural competence. This edition adds new Safety Alerts; more coverage of pain as the fifth vital sign; greater focus on care of families where a child is dying; and updated content on assessment, nutrition, communication, and many other key topics. Multiple pedagogical tools help students focus both learning and review, including intuitive Pathophysiology Illustrated visuals; Family Quotes presenting the family 's perspective; Learning Outcomes and Critical Concept Review Features; Key Terms, and an online audio glossary.

"For courses in maternal and child nursing care in any nursing program" Help students think like nurses with maternal-newborn and pediatric clients As nursing courses are shortened and clinical experiences become more limited, time is increasingly precious to both students and faculty. Designed to support faster, more efficient learning in condensed courses, "Maternal & Child Nursing Care" presents key content about maternal-newborn nursing, women's health, and pediatric nursing topics in an accurate, readable way. Throughout this family-focused text, special attention is paid to health promotion, home/community care, patient and family education, clinical reasoning, evidence-based practice, and cultural competence. Engaging features help readers learn and retain essential concepts in a short period of time. The straightforward approach allows students to focus on what is most important: developing the essential skills and abilities to practice nursing in fast-changing healthcare environments. Also available with MyNursingLab(r) MyNursingLab is an online homework, tutorial, and assessment program designed to engage students in the Maternal/Newborn Nursing course and improve results. Its guided learning path is proven to help students think like a nurse as they move beyond memorization to true understanding through application. NOTE: You are purchasing a standalone product. MyNursingLab does not come packaged with this content. If you would like to purchase both the physical text and MyNursingLab, search for: 0134449711/ 9780134449715 "Maternal & Child Nursing Care" Plus MyNursingLab with Pearson eText -- Access Card Package, 5/e consists of 0134167228 / 9780134167220 "Maternal & Child Nursing Care" 0134449045 / 9780134449043 MyNursingLab with Pearson eText -- Access Card -- for "Maternal & Child Nursing Care"

Canadian Maternity and Pediatric Nursing prepares your students for safe and effective maternity and pediatric nursing practice. The content provides the student with essential information to care for women and their families, to assist them to make the right choices safely, intelligently, and with confidence.

A better way to learn maternal and newborn nursing! This unique presentation provides tightly focused maternal-newborn coverage in a highly structured text

This text offers complete preparation for meeting the needs of families across the continuum - from conception through adolescence. Using a consistent nursing process framework, "Maternal-Newborn and Child Nursing" provides the essential information for providing accurate, safe nursing care. Special focus is given to cultural influences, community settings, communication, nutrition, pain management, and fostering critical thinking skills essential for adapting to an ever-changing health care environment. Features include: Thinking Critically boxes that provide brief real-life scenarios. Developing Cultural Competence provides information about the potential responses of different ethnic groups to health conditions or health care interventions. As They Grow boxes illustrate the anatomic and physiologic differences in infants and children from adults. Pathophysiology Illustrated boxes illustrate the disease process. Drug Guides for selected medications commonly used in maternal-newborn and child nursing. Complementary Care presents information about commonly used alternative therapies. Growth and Development Considerations detail the different responses of children at various ages to health conditions. Comprehensive Teaching and Learning Package Student CD-ROM - Packaged FREE with each text includes an audio glossary, a step-by-step breakdown of maternity and pediatric skills, NCLEX review questions, and animations to illustrate difficult concepts. Clinical Skills Manual for Maternal-Newborn and Pediatric Nursing - serves as a portable, quick-reference to step-by-step procedures for more than 65 pediatric and maternity skills using full-color photographs and rationales. Companion Website www.prenhall.com/london - Available FREE includes modules for objectives, chapter outlines, audio glossary, NCLEX review questions, critical thinking and case studies, links to other sites for student research and essay responses, additional nursing care map activities and more. Online Course Management Systems - Ask your Prentice Hall Representative or go to www.prenhall.com/demo for more information about the online course management systems that accompany this text.
