Rover 75 and MG ZT charts the evolution of the models from the early 1990s onwards including full production histories and comprehensive specification details. Contents include: the development and production of the Rover 75 under BMW in the 1990s; becoming the MG Rover Group - from BMW to Phoenix Venture Holdings; expanding the Rover 75 with Longbridge Rover Saloons and Tourers; the MG models of the new millennium - the ZT and ZT-T; monogram 75, the five-millionth Rover; a facelift for the cars with the new V8 engines; moving production to China and the end of the MG Rover Group. Illustrated with 267 colour photographs, this is essential reading for motoring enthusiasts and fans of the Rover brand.

Here is a new edition of Clausager's classic book Original MG T Series, first published in 1989 and never out of print since. For this edition fresh in-depth photography of all models from TA of 1936 to TF of 1954 has been commissioned, the text has been thoroughly overhauled to incorporate new knowledge, and chapters have been added on pre-T Series MG Midgets and on coachbuilt and special-bodied cars. The MG T Series, and in particular the TC model of 1945-49, represent the treasured archetype of the British sports car – instantly recognisable and as popular today as they have consistently been throughout the decades.

With their strong mechanical elements, solid construction and useful performance, few classic British sports cars are quite so practical to own today as the MGAs built from 1955 to 1962. The aim of this book is to show, in words and pictures, how MGAs altered in detail through the course of production, in order to enable owners, enthusiasts and prospective purchasers to identify the parts, finishes and equipment that are correct for their car. Color photography of outstanding specimens shows every permutation of MGA specification in remarkable detail.
