Wat, Bangkok, Olympus XA3
Joking aside I got it as it was light, had a good lens and the design means the lens is always protected – perfect for travelling.
I cannot remember if I took any shots before I went away (as I did not give myself any time), but I learnt a few lessons with the XA3.

The XA3, produced from 1985, is an updated XA2 which adds DX film coding support, an extra manual ASA setting of 1600, and brings back the "backlight compensation" feature from the original XA.
The built-in light traps around the door were completely redesigned and improved over the XA2.
A limited edition in red was produced.

Olympus XA and XA2 - Ken Rockwell

The XA1, XA2 and XA3 all amount to simplified and cheapened versions of the XA.
The XA1 was a simplified XA, using a selenium meter which required no batteries, and a 35/4 lens fixed focus lens and programmed exposure..
The XA2 used a 35/3.5 lens and scale focusing.
Programmed exposure.
The XA-2 also came in a variety of bright colors.

Olympus XA and XA4 - CameraQuest

The Olympus XA completely changed the compact camera game, and in doing so kept Olympus right at the very top of that game well into the digital age.

The Olympus XA3 is a compact 35mm camera in a clamshell design.
The clamshell cover both protects the lens and turns the camera on and off.
This allows the camera to not only save the batteries when closed, but also makes the camera ready for shooting the moment it is slid open.

The Olympus XA3 is a tiny black brick.
The only pops of color come from the white Olympus logo and the orange shutter button.
It doesn't get more discrete than this.
The shutter is electronically controlled and very quiet.
Add a super shallow shutter button and you get a camera feels faster than it really is.

The shirt pocketable Olympus XA rangefinder is a popular favorite among the 'cool little film camera' crowd.
I was looking to purchase a small pocketable camera too; and I read the hype, then bought one.
I should have looked at all the pictures on Flickr and the likes, that would've saved me a lot of time and money.
It's not that I don't like the Olympus XA, it really does have a lot going for ...
