

### Rudin Solutions Chapter 1

As recognized, adventure as without difficulty as experience practically lesson, amusement, as well as bargain can be gotten by just checking out a books **rudin solutions chapter 1** also it is not directly done, you could tolerate even more re this life, vis--vis the world.

We offer you this proper as without difficulty as easy way to get those all. We pay for rudin solutions chapter 1 and numerous book collections from fictions to scientific research in any way. in the midst of them is this rudin solutions chapter 1 that can be your partner.

Rudin, Chapter #1 Dominique Abdi 1.1. If  $r$  is rational ( $r \neq 0$ ) and  $x$  is irrational, prove that  $r+x$  and  $rx$  are irrational. Solution. Assume the contrary, that  $r+x$  and  $rx$  are rational. Since the rational numbers form a field, axiom (A5) guarantees the existence of a rational number  $r_0$  so that, by axioms (A4) and (A3), we have  $x = 0 + x = (r+x) - r = r_0 + x$ .

If  $\Gamma$  (  $E$  ) is compact, let  $V$  be a closed subset of  $Y$ . The set.  $V' = ( X \times V ) \cap \Gamma$  (  $E$  ) is closed in  $\Gamma$  (  $E$  ), hence compact. The projection  $n: X \times Y \rightarrow X$  is continuous, so  $f^{-1} ( V ) = n ( V' )$  is compact, hence closed (since  $X$  is a metric space and therefore Hausdorff). This makes  $f$  continuous.
