the culprit. Having your septic system inspected regularly is a bargain when you consider the cost of replacing the entire system. Your system will need pumping depending on how many people live in the house and the size of the system. An unusable septic system or one in disrepair will lower your property value and could pose a legal liability.

For the homebuilder, one mistake in estimating or installing wells and septic systems can cost thousands of dollars. This comprehensive guide filled with case studies can prevent that. Master plumber R. Dodge Woodson packs this reader-friendly guide with guidance and information, including details on new techniques and materials that can economize and expedite jobs and advice on how to avoid mistakes in both estimating and construction. Chapters cover virtually every aspect of wells and septic systems, including on-site evaluations; site limitations; bidding; soil studies, septic designs, and code-related issues; drilled and dug wells, gravel and pipe, chamber-type, and gravity septic systems; pump stations; common problems with well installation; and remedies for poor septic situations. Woodson also discusses ways to increase profits by avoiding cost overruns.

A user-friendly guide through the maze of selecting an eco-friendly sewage treatment option for your home. This book is a must for anyone worried about how well their current system is working, for people undergoing inspections, or for those who know they need an upgrade but don't know where to start.

At Last! A Beginner's Guide to Home Technology Water stains on your ceiling. Dents and cracks in your drywall. Radiators that hiss and gurgle all night long. It's enough to make you cry out, "Why doesn't my house come with an owner's manual?" And now—finally!—it does. Through step-by-step instructions and helpful schematic diagrams, *The Home Owner's Manual* explores hundreds of frequently asked questions: What's the best way to fix a leaky faucet? When should I have my chimney cleaned? How can I reset a circuit breaker without electrocuting myself? Whatever your concerns, you'll find the answers here—courtesy of licensed building contractor Dan Ramsey, who has taught the basics of renovation to thousands of homeowners.
