Technology drives the future we create. But are we steering that technology in directions that create that future in the best way, for the most people? In her new book

New 8th edition of John Figliozi's popular radio listening guide. Focus is on radio heard in North America. Covers all broadcasting formats including internet radio, shortwave, and all other formats.

The Blood Merchants, a novel, is the story of a young attorney who fights a "no holds barred" battle with the blood products industry.

Alice Paul began her life as a studious girl from a strict Quaker family in New Jersey. In 1907, a scholarship took her to England, where she developed a passionate devotion to the suffrage movement. Upon her

return to the United States, Alice became the leader of the militant wing of the American suffrage movement. Calling themselves "Silent Sentinels," she and her followers were the first protestors to picket the White House. Arrested and jailed, they went on hunger strikes and were force-fed and brutalized. Years before Gandhi's campaign of nonviolent resistance, and decades before civil rights demonstrations, Alice Paul practiced peaceful civil disobedience in the pursuit of equal rights for women. With her daring and unconventional tactics, Alice Paul eventually succeeded in forcing President Woodrow Wilson and a reluctant U.S. Congress to pass the Nineteenth Amendment, granting women the right to vote. Here at last is the inspiring story of the young woman whose dedication to women's rights made that long-held dream a reality.

In many penetration tests, there is a lot of useful information to be gathered from the radios used by organizations. These radios can include two-way radios used by guards, wireless headsets, cordless phones and wireless cameras. Wireless Reconnaissance in Penetration Testing describes the many ways that a penetration tester can gather and apply the information available from radio traffic. Stopping attacks means thinking like an attacker, and understanding all the ways that attackers gather information, or in industry terms profile, specific targets. With information from what equipment to use and how to find
